SPRINGFIELD, OHIO, MONDAY EVENING, JUNE 15, 1885.

THE SPRINGFIELD REPUBLIC  
Volume XXXI. Number 129.

## OWEN BROTHERS

Washington, June 13.—Ohio Valley and Tennessee—Fair weather in Tennessee, followed by local rains; local rains in Ohio Valley; southerly winds, shifting in western portion to northwesterly; slightly cooler in western portion; stationary barometer, followed by slight fall in eastern portion.

A summary of men's, youths', boys' and children's suits. What they are, how they differ from the every-day sorts of the ordinary dealer; why we carry such enormous stocks, and how we sell them, if we can make it intelligible, is likely to be as acceptable as any news of the store at this time. Begin at the bottom.

Unlike some of our large, far-seeing, grasping traders—high-toned in everything save qualities—we begin at the very bottom, and take this method to spread the news. Clothing, as everybody knows, is everywhere. Not everybody knows, though, what advantage in prices the advantage of large manufacturing brings, until they've found us out. Why we sell men's plain suits (guaranteed all cotton) which have the look of an \$8 or \$9 suit for \$3.50, no one knows but ourselves. If we should tell you we lost money on them, you wouldn't believe. If we told you we made 25 per cent. on them, you wouldn't believe. So these two points of our business are, it is plain to be seen, held from the public for good reasons.

If we can sell you for \$4.50 or \$5 a suit identical with suits priced up at a third more money, it's your good luck in finding and our business for selling. You looking out for number one; we ditto.

Clothing here and clothing there is not every-day alike. We are often told that, although we seem to care properly for the wants of the medium and poorer classes, that our finer qualities are finer and better made.

Aside from mark-downs, prices made for unloading purposes, as in the case of worsted suits from \$18 to \$12; another fine corkscrew (two left) \$10. Finest Gable Mills' pants, \$5. Two or three lines in men's suits at \$5. Aside from these specialties, walk in among suits at our regular prices. Take an \$18 or \$18.50 corkscrew suit and compare it. Pull it; haul it; try the making; examine the material; look at the linings, and either guess at parts you can't see or take our word. Even lower-priced garments are interestingly comparable.

Take either the black and white mixed, or the Scotch mixed suits, at \$10; put them to the same trying test. We'd rather you would. We'd rather you'd bring back any day prior to wearing, any suit bought from us which has for any reason whatever proven unsatisfactory.

Start up to make measure suits or separate pants. To be sure we haven't the time to carry the goods in full prices, or the inclination to charge such exorbitant prices; but, if you are content to select from sample with our word and guarantee for the look of the garment when finished, the it's certainly moving our way.

It is difficult to convey by any brief account an adequate notion of the variety of choice sample patterns to choose from. We, therefore, simply advise seeing what qualities are to be had from among them at \$20, \$25, \$27 and \$30 per suit, or \$7 and \$7.50 for pants.

Springfield's Only One Price and One Profit Clothiers.

## BLOWN FROM THE TRACK.

A Passenger Train on the Sioux Falls Branch of the Chicago, Milwaukee & St. Paul Railroad, blown from the track—Several Persons Seriously Injured.

St. Paul, Minn., June 15.—A passenger train on the Sioux Falls branch of the Chicago, Milwaukee & St. Paul Railroad was blown from the track, west of here, Friday night. Two passenger coaches, the baggage and express cars and tender are on their sides in the ditch. The accident occurred near Cook, a small station in Dakota, about seven miles northwest of Sioux City. The train was going at nearly full speed when a cyclone struck it.

The wind seemed literally to have lifted every car from the track, and to have turned them about in the air and dropped them in the ditch. The engine was only partly derailed, but the couplings were severed as clean and completely as though cut a knife. Nothing was seen of the approaching storm by any one on the train until it actually struck the cars.

There were sixty or seventy persons on the train, and when the shock was felt there was a momentary tumult of yells, drowned in the roar of the wind, but followed as soon as the shock was over by the shrieks of women and cries for help of those caught in the wreckage. The engine crew and several passengers who were not slightly bruised at once began chopping at the wreck. A brakeman was dispatched to McDook for a physician and another man to Sioux City for aid.

A partial list of the injured is as follows: Conductor McCall, of Sioux City; D. T. Hodges, Sioux City; A. Rockwood, Express Messenger; L. M. Scott, injured internally, seriously if not fatally, and an old man and his wife, whose names could not be learned. The cyclone came up so suddenly that no one saw it.

## Sitting Bull's Speech.

BUFFALO, June 15.—Sitting Bull said when questioned on Saturday about the fight in which Custer fell: "That is of another day. I fought for my people. My people said I was right. I will answer to my people. The friends of the dead pale faces must answer for those who are dead."

## Methodist Church Burned.

MIDDELTOWN, Conn., June 15.—The Methodist church burned Saturday morning at four o'clock, causing a loss of \$38,000. Several other buildings caught fire, but were not seriously damaged.

## THE DAY'S NEWS.

Telegraph from all Parts of the World.

The Quaking Vale of Cashmere.

Colden Grain Field of the West.

Chicago's \$50,000 War for Peace.

Latest from Europe.

Chicago's Fight For Order.

Chicago, June 15.—Rev. A. E. Kittenridge, in the Third Presbyterian church last night, stated that this was the first time the people who were looking for Sabbath reform, were going to the right place, not to the Mayor, but to the Courts of the State. If the fight against Sabbath violation costs \$50,000, the purchase of peace for the city at that figure would be a low price. He alluded to the contest which will be begun this week in the Circuit Court; against horse-racing on Sunday in the West Division. The West Division Horse Car Company has refused to run extra cars, and the Chicago, Burlington and Quincy railroad, has refused to run extra on Sunday to the Driving Park for the benefit of race track owners.

Minnesota Wheat Fields.

MINNEAPOLIS, June 15.—Reports received from over eight hundred points in Minnesota and Dakota covering every wheat growing county of importance, and from three hundred points in northern Wisconsin and Iowa. One hundred and fifty-five reports say the condition now is good. One hundred and thirty-five reports say better than last year, at this time; fifty say ten per cent better; fifty say poor; thirty-five not as good as last year and twenty from ten to fifteen per cent worse. Bad reports are from old counties where the ground is weary, and where wheat was sown late.

Western Storms.

OMAHA, June 15.—A second severe rain and wind storm within half a week here yesterday, one residence in Omaha struck by lightning, occupants escaped injury; a brakeman, named Sullivan, was killed by lightning near Columbus; immense damage was done in the country to wind mills, sheds and barns by the wind. The storm along the Union Pacific was particularly severe, a great deal of damage was done for a distance of fifty miles along the Nebraska railroad in the Southern part of the state. Great damage was done to buildings.

Fire Picked Up in Bri tains.

LONDON, June 15.—The Times continues to condemn the late Government. The Daily Telegraph says: "The Marquis of Salisbury will have the sympathy of the country and warns the Radical leaders, Mr. Chamberlain and Sir Charles Dilke, not to make the mistake of obstructing the elections in the provinces, but to see fair play."

General Grant to Leave New York.

NEW YORK, June 15.—When Dr. Douglas left Grant this morning, he said the General had passed a comfortably good night, and, though his voice was very hoarse, he had not lost his usual vigor. Arrangements for his departure tomorrow morning are being perfected today.

No More Money.

WASHINGTON, June 15.—Commissioner Mann summoned to his office, this morning, the entire force of the statistical bureau of agricultural department, numbering twenty-one persons, of both sexes, and announced that there would remain no money to pay their salaries after the 20th inst. All were furnished without pay from the 20th inst. until July first.

A Kentucky Pienantry.

OWENSTOWN, June 15.—Yesterday, at Heiler, seven miles from here, Robert Coleman and Henry Reynolds, returning home with a quantity of whisky, quarreled near home and Coleman was stabbed to death. Both men have large families in a helpless condition. The men were good friends when sober.

For Hignny.

CHICAGO, June 15.—Carl Jones aged twenty-two, employed in a commission house here, said he is the son of the Irish parents residing in Tudor, N. Y. was arrested last night on the charge of bigamy.

The Wigwam and the Democratic State Convention.

No start has been made today toward the demolition of the Wigwam on Market square and it is the understanding something touching the disposition of it is likely to develop at the meeting of the executive committee tonight. The Democratic State Convention is securing the location of the Democratic State convention in Springfield are devoting their energies to the securing of an early decision that if favorable, an extension of time can be had permitting the Wigwam to stand as it is for that event.

Today's Enquirer has the following editorially: Springfield should possess herself in modesty and peace. It is probably not a matter of great consequence when the Democratic State Central Committee holds its meeting, but the Springfielders ought not to expect to precipitate it just to get them off the anxious seat about whether they are to have the Convention or not. Springfield thinks she did so well with the Republican Convention that she ought to have the Democratic Convention right away. She is in a state of dizziness and wants a decision at once. Now, Springfield acquired herself last week, and she is not a little excited. The hotels were uncomfortably crowded, but that state of affairs is always expected in convention times. The accommodations at Springfield were good, but not superior enough to compel the world to revolve around it.

The sixty ounce brain of the Enquirer's leading editorial writer is no better than an ordinary ninety-cent thirty ounce affair in enabling him to compass the situation. The point, in the pressure for an immediate decision, turns upon this question of tearing down the Wigwam, and the "anxious seat" is a back seat in the place it holds. It is our Columbus neighbors who are on the anxious seat and shrieking for delay. They are again fighting against Springfield, tooth and nail.

Mr. Gladstone Appealed to to Lead the Liberals at Next Election—Prince Frederick Charles Stricken with Paralysis.

BRISTOL, June 15.—The Marquis of Salisbury has consented to form a Ministry, and is actively negotiating with Sir Stafford Northcote, the Duke of Richmond and Gordon, Lord Euston, Hon. Edward Stanhope, M. P. for Middlesex, and Mr. Rowland Winn, M. P. for Northamptonshire, to the end of securing their co-operation. These gentlemen have agreed to meet and consult with Lord Salisbury to-day.

The Daily Telegraph says that Lord Salisbury has adopted the only course open to him in assuming the formation of a new Ministry. The news makes a fresh and hopeful appeal to Mr. Gladstone to lead the Liberal party at the next election, and says it plainly sees defeat for the Liberals if he does not lead.

The Times continues to berate the Gladstone government, publishing a sensational and a sensational Liberal whip for attendance at the session of the formal meeting of the House of Commons to-day. In commenting thereon, the Times says the notice is precisely the same as the one issued on the occasion of the crucial division on the Budget last Monday, and remarks that "whips cry will once more be heard."

The Daily Telegraph (Liberal) says Lord Salisbury will have the sympathy of the entire country in his undertaking and warns Sir Charles Dilke and Mr. Chamberlain not to make the mistake of obstructing elections at the coming Parliamentary elections. There must be fair play and the electors in the provincial districts will see that their rights are respected.

It is announced that Hon. Joseph Chamberlain, President of the Board of Trade in the Gladstone Cabinet, will take the stump in Scotland in the next Parliamentary campaign.

The Daily Telegraph says that the acceptance of the Premier by the Marquis of Salisbury was wholly unconditional. The Standard is unable to conceal its fears for the future of Lord Salisbury's Cabinet, with public affairs in the present state, the Tories in a minority in the House of Commons, and the Liberals and Radicals openly refusing to lend them assistance, the worst possible results are to be apprehended.

An arduous murder was committed in Mill Street about noon, and dispatches from Dublin state that an attempt to murder a landlord in County Tipperary was made by National raggers to-day. These crimes will be eagerly seized upon by the Conservative in Parliament as furnishing additional evidence of the necessity for the immediate passing of the Crimes Bill.

BREITENBURG, June 15.—Prince Frederick Charles, of Prussia, Field Marshal of the Imperial Army of Germany, was stricken with apoplexy yesterday and is now lying in a state of partial paralysis.

PARIS, June 15.—The race for the grand prix was run yesterday and won by Paradox. Reliant was second and "Present Tense," third.

GENOA, June 15.—While a church procession was passing through the streets yesterday, it was attacked by an anti-clerical mob. Sticks, stones, knives, etc., were freely used and the procession was dispersed. One person was killed and about twenty more or less seriously injured.

Baccalaureate Sermons.

BOSTON, June 15.—The Baccalaureate sermon at Tufts College was delivered yesterday morning by President Capen. His topic was: "The Modern Scholar Must be an Interpreter of Truth."

AUNDELL, Mass., June 15.—Rev. Henry B. Ridgeway, President of the Garrisonian Institute, Boston, delivered the Baccalaureate sermon before the graduating class of Laetia Female Seminary yesterday. The commencement exercises will take place Wednesday, with an address by Rev. J. W. Underhill.

PRINCETON, N. Y., June 15.—Rev. Alexander McKenzie, of Cambridge, Mass., delivered the Baccalaureate sermon at Cornell University yesterday, on "Life and Light."

NORTHAMPTON, Mass., June 15.—The Baccalaureate sermon at South Female College was delivered to a class of forty-five graduates and 1,200 visitors yesterday morning by President L. Clark Seelye, of the same college. His topic was: "The Christian as a Soldier."

FORBIDDING INOCULATION.

The Spanish Government forbids Dr. Fernan's System of Inoculation—Hospital Stopped by the People.

MADRID, June 15.—The Government order forbidding inoculation also forbids any one to have in his possession in the infected provinces any "microbe inoculation liquor." This shows that the Government believes that the inoculation is likely to transmit a dangerous disease, and it foreshadows the decision of the National Medical Commission appointed to consider Dr. Fernan's system.

If the report is unfavorable to Fernan, there may be riotous outbreaks among the poor classes, who trust almost implicitly in his formula, and have no faith in the other physicians. A few days ago, a mob at Valencia smashed the windows of a hospital, to show their dislike of the doctor.

Statistics show in thirty-eight villages in the province of Valencia, 1,283 persons infected, and 511 deaths. In the village of Muro, province of Alicante, sixty cases and fifteen deaths are shown, and many cases in Villavieja, province of Castellon. There is reason to think that there are under estimates.

A Balloon-keeper at Fall River, Mass., Falls Heir to \$1,000,000.

FALL RIVER, Mass., June 15.—Edward Taylor, a well-known balloon-keeper in this city, has just been declared to be the legatee of a property in England worth \$1,000,000. Taylor has been in London fifty-five years ago. His father was named Cavendish and owned the Cavendish estate in Essex, and his mother was Cavendish's housekeeper, Mary Taylor by name. Cavendish died two years ago at the age of seventy-five. Taylor was not acknowledged as Cavendish's son until three months ago, when the first communication to him came through the American Consul. On Saturday last Taylor received from the family solicitor a check for \$1,000 and a formal notification that his claims were fully admitted. He has given away his salesmen business and will start at once to live on the estate bequeathed to him.

CHICAGO, June 15.—About five o'clock yesterday afternoon William Hutchinson shot and killed his mistress, Kittie Hall, an inmate of a house of questionable repute on Pacific Avenue. Hutchinson was found almost helpless from drink and unable to give any account of the tragedy. Hutchinson was intensely jealous of other men's attentions to her. About six weeks ago he attempted to kill the woman but the revolver was knocked out of his hand and went off as it struck the floor.

The Wife of President Rutter Dead.

NEW YORK, June 15.—The wife of James H. Rutter, the deceased President of the New York Central Railroad, died at Clermont Infirmary near Sing Sing yesterday. She has been persistently inquiring concerning her husband of late and died when the announcement of his death was made to her. Husband and wife will be interred together at Woodlawn on Tuesday.

A Japanese Student Carries Off the First Prize.

NEW BRUNSWICK, N. J., June 15.—Ko Jiro Matsuzaki took the first prize in history and the prize for the best oration on Friday last at the Rutgers preparatory school of a class of 200 graduates. He is a young Japanese, and the subject of his oration was "The New Japan." He was greatly applauded.

## SEVERE STORM.

Sections of Iowa Swept by a Destructive Storm of Wind and Rain.

Houses Swept Away and Unroofed—Trees Torn Up by the Roots—A Number of Persons Fatally Injured.

DAMAGES OF THE STORM.

MAINTHEATOWNS, Ia., June 15.—Reports of Friday night's severe storm indicate that much damage was done. There was considerable hail. The Christian Institute at Le Grande was unroofed. A bridge across the Iowa River at Le Grande was blown into the river. Four cars were blown off the track out of a freight train, four miles west of here.

KEOSAUQU, Ia., June 15.—Heavy storm prevailed throughout this section. Bridges on the Rock Island road were washed out, and there will probably be no trains run to or from Des Moines until to-morrow. The other roads are all right. The Egyptian levee broke three miles above Des Moines, the river overflowing the land and causing great damage to crops.

A special to the Constitution from Farmington, Ia., says: "The heaviest rain known for years fell. Railway bridges were washed out in many places, and all trains delayed. The streets and houses were flooded and several houses and barns struck by the storm."

COUNCIL BLUFFS, June 15.—The storm struck the Deaf and Dumb Institute, tearing the roof from its moorings, and carrying it down the street. The building between the new chapel and the main building was crushed for several hundred feet. No one was hurt, although there were thirty in the building at the time. The loss is \$8,000 on the building and \$5,000 on the furniture.

The storm struck the town of Whiting, Iowa, blowing down many houses and barns, and severely injured Mrs. John Crossley. One house was torn to pieces, broke Mrs. Packard's arm and carried her baby a week old. She was in bed, and the child was left in the street. Four miles north John Davenport's house was blown down and his wife seriously injured. James Smith, while near the lake, was blown into the water with his team and the horse drowned. Other damage is reported. In Guthrie County the house of G. W. Jackson was destroyed, and Mrs. Jackson and daughter both hurt. The barns and other buildings of John Hefner, six miles further east, were wrecked. At LeGrand, near Marshalltown, the Christian Institute was unroofed, and the river bridge blown down. Serious damage to crops have yet been received.

In Jasper County the rivers have all overflowed their banks. The bridge on the Iowa Central was carried away and two miles of track of the Northern Missouri Railway was washed out. In the eastern part of the county considerable damage was done by the wind, and the residence of J. J. Smith was destroyed and his wife and daughter badly injured.

At Coon Rapids the engine-house of the Milwaukee & St. Paul road was leveled to the ground.

In Hancock County some small buildings were picked up and scattered over the prairie.

SIoux CITY, June 15.—There is little to add to the report of the train wrecked by the cyclone near here Friday night. The injured are all doing well, except Mrs. G. C. Hitchcock, of Kimball, D. T., who is in a dangerous condition. Reports to-day show that the storm was widespread in this locality. Near Sioux, in the northwestern corner of the county, several houses and other buildings were wrecked and fifteen persons injured, several seriously. A babe was blown from its mother's arms and found at a distance of three miles. The mother was supposed to be dead, but after being washed and laid out suddenly came to life and is now recovering. The crops suffered but little.

DES MOINES, Ia., June 15.—News of Friday night's storm is slowly coming in. Four miles north of Ruthven, five houses belonging to Swedes were destroyed by the wind. A man named Helgeson was fatally, and his wife seriously injured. The body was carried some distance and left under a board pile unharmed. The house of Alex. M. Adams, of Victor, was struck by lightning and wrecked. Two children were seriously hurt.

Watching for the Bartholomew.

NEW YORK, June 15.—The hero, bearing the Bartholomew statue has not yet been sighted thought she is momentarily expected.

The bark "Johannah," which arrived yesterday from Mauritius, reports that she saw a French man-of-war in latitude 37.30, longitude 77.00 Cape May on Friday morning. The vessel was seen under easy sail. This is supposed to have been the Isere, using her coal and her canvas. The French frigate La Flore is expected with the Isere and the two vessels will anchor near the Hors-Sloidy Light. They will be joined by the United States steamers Omaha, Dispatch, Powhatan and Alliance, under command of Commodore Chandler. The whole fleet will then move to the foot of West Twenty-third street where appropriate salutes will be fired.

The Liberty Bell.

MONTGOMERY, Ala., June 15.—The Liberty bell arrived from New Orleans Saturday night in charge of Mayor Gautier and a committee of thirty Councilmen of New Orleans. The bell was received here by the Mayor and Aldermen and a large number of citizens. The special train ran out to the camp of the Second Alabama Regiment at about nine o'clock. The camp was brilliantly illuminated and the old bell was received with a national salute. There was much enthusiasm. The bell left for Philadelphia.

Cut with a Razor.

NEW YORK, June 15.—In a drunken quarrel last evening between a number of colored women in a liquor saloon on the corner of Grand and Thompson Streets, Martha Brown drew a razor and cut Annie Thompson in the breast, arm and severed her jugular vein. The wounded woman was taken to Bellevue Hospital, where her injuries were pronounced fatal. The woman Brown was arrested.

Caught in a Squall and Drowned.

NEW YORK, June 15.—At three o'clock yesterday afternoon while Philip Rosch, Fred Fleisch and a young girl named Carrie Miller, all of Jersey City, were sailing off Tompkinsville, Staten Island, in the sloop "Retort," the boat was caught in a squall and upset. Rosch was drowned, the other two were rescued and sent home.

A Japanese Student Carries Off the First Prize.

NEW BRUNSWICK, N. J., June 15.—Ko Jiro Matsuzaki took the first prize in history and the prize for the best oration on Friday last at the Rutgers preparatory school of a class of 200 graduates. He is a young Japanese, and the subject of his oration was "The New Japan." He was greatly applauded.

## THE FIRE RECORD.

A Destructive Fire at Wesson, Miss.—Mine Fire Near Wilkesbarre, Pa.—Other Losses.

NEW ORLEANS, June 15.—A special to the Times-Democrat from Wesson, Miss., says: "Early Sunday morning fire was discovered in Masonic Hall, and soon the entire square was in ashes. The losses above insurance are as follows: Total loss not given; Methodist Church, \$2,000; Abrams & Berger, \$4,500; John Marion, \$1,000; Becker & Lee, \$18,000; A. Westfield, \$2,000; Dampier, Riley & Co., \$25,000; E. H. Morgan, \$5,000; Colman Graves, \$1,000; F. D. Wintberry, \$2,000; and W. J. Williams, \$1,500. A dozen others lost under \$1,000 each above insurance. The Mississippi mill, one of the largest cotton factories in the South, narrowly escaped destruction. The total loss will probably reach \$75,000.

WILKESBARRE, Pa., June 15.—The fire at the Dorrance mine, located less than a mile from this city, continues to rage with the greatest fury. The fire was caused by an explosion of gas, and the twelve men who were in the mine at the time escaped by the second opening. The train work in the several tunnels is all on fire, and is increasing. Over one hundred men are employed by the company to put out the flames, and all the steam fire engines of the city have been doing duty since the outbreak last night. The coal in the mine is on fire, and there is no telling what the result will be.

HAVERTHILL, Mass., June 15.—"Little's Barn," so called, at Spofford's Hill, Georgetown, four stories high, owned by D. E. Moulton, was burned at one o'clock yesterday morning. Loss \$16,000. A large shed, also and a dwelling were destroyed also.

BLOODY PRIZE FIGHT.

Billy Wilson, of St. Paul, and Patsy Cardiff, of Peoria, Ill., Fight a Prize Fight.

ST. PAUL, Minn., June 15.—The fight between Billy Wilson, of this city, and Patsy Cardiff, of Peoria, Ill., came off yesterday afternoon before about 1,000 people, at a point on the west bank of the Mississippi River, eight miles below St. Paul. Wilson was the favorite among local sports. Pat Conley, of this city, was chosen referee. Captain Dalton and Wilkes McDermott seconded Cardiff, while Professors Hornes and Healey did the honors for Wilson. Both men were in excellent condition. Wilson stripping to 175 pounds and Cardiff tipped the beam at 175. Time was called at 5:15, and both men sprang to the front.

The first round ended with much heavy hitting, but it was evident that Cardiff was the best man in point of science. The only chance for Wilson to win was to get one of his terrible right-handers in on his opponent's head. He clung to his knees, fazed his opponent and struggled to gain his feet, but was unable to do so. Cardiff was then given the fight. It was one of the bloodiest encounters ever seen in this country. Cardiff was only bruised, the left cheek and exhibited wonderful staying qualities. He was about \$2,500, taking the entire gate receipts and several bets.

THE BREADWINNERS.

Other Brothers and Phillips Sign the Scale.—The Glassblowers of Sharpsburg Go to Work.

PITTSBURGH, June 15.—The most important development in the iron situation became known long after the adjournment of the iron manufacturers' and iron workers' conference Saturday night. Oliver Brothers & Phillips met a committee from the Amalgamated Association and agreed to sign the scale as presented, with the following modification: "It is understood that for all unfinished iron work on any finishing machine to be accepted, the manufacturer must use three or more old rails, or old rail iron, per cent. extra above current prices shall be paid." This was agreed to by the Association and work will be resumed this morning.

The next conference meeting of the representative committees will be held on Tuesday night to-day.

At Waukegan, Pa., the co-operative wire company has been reorganized under a new management. At a meeting of stockholders Saturday evening officers were elected. The works will resume operations in a few days. After a protracted struggle for six months the glassblowers at Sharpsburg have been compelled to accept the manufacturers' terms. Fifty of the strikers will return to work to-day. There are still a number of determined men who will make another "effort to close the factories."

A Pious Woman Horsewhips a Physician.

PINDLAX, O., June 15.—Van Lue, a small town east of this city, was thrown into excitement Saturday by the wife of a prominent citizen of that place to horsewhip Dr. M. Marshall because of an alleged insult offered by the latter. The affair occurred on Main Street and was witnessed by a number of spectators. The doctor was severely hurt in the affray. The matter is the talk of the surrounding country and may yet result seriously.

Mysterious Action of Village Officials.

EAST TAWAS, Mich., June 15.—Hon. Robert White, Judge of Probate, decreed that Supervisor James Melvor and Town Clerk James Norris deliver the books and papers of the town of East Tawas to their successors, which they failed to do, and a warrant was issued and placed in the hands of the Sheriff, who went to make the arrests, but neither Melvor, Norris nor the books or papers were to be found.

Great Distress Threatened.

LYNCHBURG, Va., June 15.—Great distress threatens the people of the border counties in Southwest Virginia for food. The corn supply, which is their main support, is almost exhausted, and is selling at two dollars per bushel, and the wheat crop, now nearly ready for harvest, is so meagre that it will afford but little relief. These are the counties that suffered heavily from drought and scourge last year.

German Press Club.

NEW YORK, June 15.—A German Press Club, composed of German journalists of New York, Brooklyn and adjacent cities, has been organized here. A national convention of German American journalists is announced to be held in Milwaukee next August.

Another Defalcation.

VIRGINIA, June 15.—Another defalcation has come to light in the Vienna Deposit Bank. The sudden disappearance of the chief clerk in the bank department led to the discovery that his accounts were \$60,000 short.

Brakemen on the Baltimore & Ohio Strike.

NEWARK, O., June 15.—A general strike on this division of the Baltimore & Ohio Railroad is threatened on account of the company dispensing with one brakeman on each train drawn by a "Mason" engine. The other brakemen refused to take trains out Friday night, and several serious fights took place in the yards. The participants were arrested but released in order to ally the strikers.

Seventeen-Year Locusts.

ELKHART, Ind., June 15.—The seventeen-year locusts have made their appearance in the northeastern part of this county in large numbers in place of woods which was filled with them just seventeen years ago.

FIRST, Mich., June 15.—Seventeen-year locusts have put in an appearance in this vicinity, and are causing much consternation among farmers.

## NATION'S CAPITAL.

The Findings of the Court of Inquiry in the Case of Lieutenant Smith, of the Navy.

Chairman of the Board of Pension Appeals Superceded—Dispatch from Assistant Adjutant General Whipple.

COURT OF INQUIRY.

WASHINGTON, June 15.—The findings of the court of inquiry in the case of Smith, of the navy, will be made public within a few days. They are understood to be quite severe and it is thought a court-martial will be ordered before the week passes. An appointment to this position will be in order soon. In navy circles it is said a selection is sure to be made either of Pay Director Looker or Pay Director Fulton.

Captain H. L. Howison, one of the most accomplished officers of the navy, is to have command of the new steel cruiser Atlanta, which will be placed in commission about August 1. The vessel has her machinery in and will have a trial in two or three weeks. There is naturally a strong desire among navy officers to be detailed to this ship—the finest cruiser of our navy—one which will carry as powerful guns as any ship of her size in the world.

Aaron Bradshaw, chairman of the Board of Pension Appeals of the Interior Department, has been superseded by John Rogers, of Kansas. Mr. Rogers is said to be a man of ability, and his appointment was urged by a number of influential Kansas Democrats. He was a Brigadier General attached to the Army of Tennessee, and is said to have been in the line of that rank in the service during the war.

The following telegrams confirming yesterday's press dispatches have been received at the War Department from Assistant Adjutant General Barber, at Whipple Barracks:

BRACKEN, June 15.—A courier is just in from Fort Law's camp. He reports that while the Wood and Hatfield were sent in the vicinity of Guntaholm, Kansas, his camp was attacked by Indians about noon on the 8th. Five of his men were killed, and two mules and five stores burned. He was in excellent condition. Wilson stripping to 175 pounds and Cardiff tipped the beam at 175. Time was called at 5:15, and both men sprang to the front.

The first round ended with much heavy hitting, but it was evident that Cardiff was the best man in point of science. The only chance for Wilson to win was to get one of his terrible right-handers in on his opponent's head. He clung to his knees, fazed his opponent and struggled to gain his feet, but was unable to do so. Cardiff was then given the fight. It was one of the bloodiest encounters ever seen in this country. Cardiff was only bruised, the left cheek and exhibited wonderful staying qualities. He was about \$2,5
